18.2 Build Release Notes

1.Introducing Hashtag search field

In the new 18.2 build of Pinnacle Pro there is an additional search field being made available – Hashtag

The purpose of this field is to allow bespoke search criteria to be implemented on clients systems.

Contact support team for further information regardin this feature.

2. Searching by Gearbox code

Also available in 18.2 Build is the ability to search for car parts based on the gearbox number.

The gearbox number can be found on the MVR screen as shown below:

The screenshot shows the 'Summary' tab of the MVR screen for vehicle 00519102. The 'Gearbox Code' field is highlighted with an orange box and contains the value '1234567'. Other fields include Stock Number, Site, VIN, Engine No., Year, Model, Style, External Colour, Notification Date, Purchase Date, Class, Claim/Lot Number, Stall, Default PDR, MVR Created, Registration, Registration Date, Figured By, Buyer Name, Tow Request On, Expected On, Arrived On, Cleared On, Purchased From, Contact, Towable, Tow Company, Pickup At, and Title Junked.

On the find vehicle screen the gearbox code can be used to search as shown below:

The screenshot shows the 'Find Vehicles' screen. The 'Gearbox Code' field is highlighted with an orange box and contains the value '1234567'. The search criteria include Site, Stock #, Reg Number, VIN, COD, Engine Code, Gearbox Code, Arrival Status, Year Range, Manufacturer, Model, Location, Claim/Lot #, Purchased Date, and Purchased From. The search results table shows one entry found.
